IRIS Pre-Transplanting SALE

We are putting on this sale so that you can help with our transplanting. We have two acres of Iris and, rather than do our transplanting first and then put on a sale later to sell the surplus, we are estimating the amount we will have to spare and having the sale now so that you can get your planting done early.

We have listed the approximate number of plants we have to sell of each variety. Get your order in early so as not to be disappointed.

Orders will be filled in rotation and unless you instruct otherwise your order will be filled as soon as possible. Cash with order. All orders will be sent Express Collect.
